

**THE ADHYAN SCHOOL** is built on a solid foundation of traditional values and blessings from the elders.

The school is a vision of Shri Ram Niwas ji who founded the R.S.Educational Society with an aim to provide quality education to children in a student friendly ambience.

**THE ADHYAN DIFFERENCE:**

The most positive difference we will bring into education is by way of practice and real Adhyayan that is learning of the mind, body and soul. This session our school shall strive to follow the spirit of positive change

**The First in Meerut**

- An Einstein's Zone, a space where science is practiced outside books
- A Picasso Corner, where art is practiced in its real form
- The King (Martin Luther King) Studio, where communication skills are polished to perfection
- The Sports Zone, with Indoor and Outdoor sports facility

The school with its well defined teaching methodology and infrastructure will prepare students for the Central Board of Secondary Education (CBSE), New Delhi.

Q2 How many... 3m x 75cm x 60cm?  
Sol: l of a cuboid = 3m = 300cm  
b = 75cm  
h = 60cm  
V = l x b x h  
= 300 x 75 x 60  
= 1350000

**THE SECRET IN  
EDUCATION LIES  
IN RESPECTING  
THE STUDENT**

**You LEARN EVERYDAY  
if you pay ATTENTION**

**Understanding The Adhyayan**

**LEARNING**  
The students at The Adhyayan School participate in a challenging and preparatory curriculum as prescribed by the C.B.S.E from Pre-school to Grade 9 with ample opportunities for each individual's attention and personal growth. With traditional teaching at the core and appropriate use of technological tools of learning like Digital labs, The Adhyayan strives to bring out the best in each child. Our Confidence arises from our smart students and dedicated faculty. The internal 'Positive Thinking' environment has imbued in the teachers that Teaching kids to Count is fine, but teaching them what counts is Best. Learning that Teaching kids to enable our students to be sound Professionals not just machines to do daily tasks. **The Spirit of Positive Change & Learning** shall enable us to give a better citizen to the society.

**Discipline**  
In The Adhyayan School, as part of The **Spirit of Positive Change & Discipline** values of respect, responsibility, persistence and fairness are instilled in students as part of their Education. This creates a structured, nurturing environment in which a child can learn. Adaptation of these same principles further prepares them to be good citizen, good co-worker, good neighbour and ultimately a good human being.

**Service**  
The Spirit of Positive Change & Service urges our students to think of others first and to share their God-given talents. We believe teaching our children understand that practicing service is as important as preparing for studies. During the course of schooling our students shall be given a chance to participate in Service projects. The efforts shall go on to teach children that selfless help brings in innumerable rewards that come with helping someone in need.

**Education with Values**  
Character shapes the future. Learning with Honesty, Respect and Compassion are the values that make the child successful. With images of violence and bitterness all around it becomes all the more imperative that we instill values in our children. Moral Science classes are the need of the times. We strive to make children understand our Holy books and underlying message of love, humanity and excellence. Parents are our important bridge with the child. Maximum time an impressionable child spends is with his / her parents'. We request to parents to help the child continue and practice at home the Spirit of Positive Change that he learns and experiences from the school.

**IMPORTANCE  
OF EDUCATION  
LIES IN TEACHING  
TO MINDS WITH  
MORAL VALUES**

LEARNING is  
KNOWLEDGE TO EXCEL  
IN THE FIELD OF  
INTEREST. We shall  
help STUDENTS  
identify THEIR  
INTEREST AND  
THEN  
GROOM  
THEM  
ACCORDINGLY  
IN THE COURSE  
of schooling.

**INFRASTRUCTURE & Facilities**

The school building has been designed with great care to suit the purpose of multipurpose education. Apart from classrooms, library and labs, we at Adhyayan have created the following special rooms:

1. Music Rooms for Instrumental music and Vocal
2. Dance Room
3. Science Labs: Fully equipped Physics, Chemistry and Biology Labs keeping in mind the safety of children with equipments and apparatus.

At our school we have the state of the art infrastructure to facilitate a great learning experience for your child:

- Spacious well ventilated classrooms with modern aids-smart boards.
- Well equipped laboratories for science subjects.
- Play grounds for major games.
- Indoor games facilities.

**Library**  
The Library is one of the main centers of learning in any educational institution. Our library is well stocked with story books, reference books, periodicals, magazines and Newspapers to keep students and teachers informed and updated with current happenings.

**Computer Rooms & Information and Communication Technology**

**General Safety :**  
The safety of children, our future generation is of prime concern and we have installed CCTV cameras at all locations to monitor the safety aspect of children. We have our own Bus fleet for Transportation with Drivers & Helpers on payroll. We conduct regular drills and educate children, teachers including non-teaching staff on safety regulations.

Along with traditional teaching we strive to use digital tools for better practical understanding of the children. Classrooms are designed such that the teacher is empowered with digital tools and media to provide students the opportunity to learn and absorb faster. Based on multimedia, mapped to curriculum content, the digital classroom illuminates abstract and difficult concepts with clarity, bridges learning gaps and helps both teachers and pupils realize their true potential. There is an exhaustive repository of well researched lessons (consisting of 2D and 3D animations, graphics, audio and video clips) on each and every subject form preprimary to Class XII. Importantly, the modules are designed in a teacher friendly format that would allow them to make interventions and explain in the best possible manner.
